## INTRODUCTION

We, the Training group at CSA, have created a guide for you, our special visitors, to help you find activities to enjoy while in Canada.

The guide includes recommendations for places to eat, to hang out and to visit. While in Montreal, we strongly recommend that you make use of the metro (subway, see map for detail page 24) system to get around to the different places of interest. At 3,00\$ per trip, it is the safest, easiest and least expensive way to get around the island.

The guide also includes a set of maps to help you get around different places in and around Montreal and the South Shore area.

This guide is a work in progress so would greatly appreciate your comments and feedback. Let us know if it is useful, if anything is missing and any suggestions for places / activities you have discovered while visiting Montreal and South Shore.

The CSA MSS Training Team
